O

splice variant	Induced pluripotent stem cell (iPS/iPSCs)	machine learning	Wnt	"deplete"
"preliminary data" / "preliminary results"	nanoparticles	Mitogen-activated protein kinase (MAPK)	temperature sensing	Alzheimer's
FITC (fluorescein isothiocyanate) stain	clustered regularly interspaced short palindromic repeats (CRISPR)	FREE SPACE 	lymphocyte	phase separation
central dogma	metalloprotein/metalloenzyme	cryoEM	mitochondria	transcription factor
Danio rerio	topoisomerase	riboswitch	cough	micro-compartment
