"preliminary data" / "preliminary results"	taste buds	telomeres	single molecule fluorescence in situ hybridization (smFISH)	neural crest
vesicles	Danio rerio	regeneration	DAPI (4',6-diamidino-2-phenylindole) stain	temperature sensing
Drosophila Melanogaster	Tumor Protein 53 (TP53)	FREE SPACE New Glarus Brewing Co.  Spotted Cow	FITC (fluorescein isothiocyanate) stain	chromatin remodeling
Induced pluripotent stem cell (iPS/iPSCs)	phase separation	Mus musculus	"deplete"	sniffle
ear canal	"patterning"	clustered regularly interspaced short palindromic repeats (CRISPR)	transcription stalling	long non-coding RNA (lncRNA)
